

DISTRIBUTION CODE OF PRACTICE CORPORATE STATEMENT

“Products will not be shipped unless it can be done in accordance with the following guiding principles”.

ERCO Worldwide is committed to:

- Distribute chemicals and services in a manner which protects people and the environment from hazards.
- Provide information about the hazards and associated risks of chemicals and services distributed to customers, enabling proper use and disposal.
- Provide information about hazards and associated risks of distribution activities to employees, other people on site, distributors, and to those in the community who have an interest.
- Know the laws and regulations concerning distribution of chemicals, services and information, and meet or exceed them in letter and in spirit.
- Be sensitive and responsive to community concerns about the chemical distribution activities.
- Ensure that distributors or resellers of ERCO Worldwide meet the minimum standards of this code as it applies to operations involving our products.
- Ensure that suppliers of chemicals, chemical products and services to ERCO Worldwide meet the minimum standards of this code as it applies to operations impinging on ERCO.
- Work actively, alone, or through selected organizations, and, if possible, in consultation with other affected stakeholders, to assist governments in developing public policies, legislation and regulations governing the distribution activities.
