

ENVIRONMENTAL POLICY

ERCO Worldwide, as a manufacturer and supplier of chemicals, technology and services, recognizes that it is responsible for achieving sustained growth of its business together with the long term objective of zero environmental impact.

To that end we are committed to the continuous improvement of our environmental performance by endorsing and promoting the following goals and reliable methods:

- Conduct our business in an environmentally responsible manner that reflects the principles and practices of Responsible Care®.
- Develop, practice and audit sound environmental policies and procedures.
- Require all employees to comply with applicable environmental laws, regulations and company policies and procedures.
- Expect sound environmental practices from all those that provide us with goods and services.
- Provide guidance and assistance to our shippers, carriers and customers in the safe use, handling and disposal of our chemical products and technology.
- Work proactively with the communities in which we operate to ensure that management and employees are sensitive and responsive to public environmental concerns.
- Periodically review and improve our environmental policy.
