

ERCO Worldwide

“ERCO Worldwide’s Vision is to be the best supplier of products and services that meet the existing and future needs of our customers.”

THE COMPANY

ERCO Worldwide has a 110 year history of producing chemicals and continues to play a pivotal role in supplying environmentally preferred chlorine dioxide technology and services to the pulp and paper industry.

ERCO Worldwide’s chloralkali business serves a variety of industries including municipal and industrial water treatment, food processing, fertilizers, agricultural intermediates, and oil and gas.

ERCO Worldwide

ENVIRONMENTAL POLICY

ERCO Worldwide, as a manufacturer and supplier of chemicals, technology and services, recognizes that it is responsible for sustained growth of its business together with an ethical responsibility to the environment.

OUR PEOPLE

It is our belief that exceptional customer service can only be delivered by exceptional people. At **ERCO Worldwide** we invest in the knowledge, motivation and skills of all of our people to ensure our continued success.

SAFETY POLICY

Safety is the highest priority at **ERCO Worldwide**. Other parameters, while key to our success, must be accomplished in a manner consistent with sound safety management.

Our policy is based on the belief that all accidents and incidents are preventable. Business shall be conducted and activities shall be performed with this objective in mind. Through safety performance leadership we aim to be the best in the chemical industry.

 **ERCO Worldwide**
technology presence

As an innovator, **ERCO Worldwide** continues to develop technologies that provide increased competitiveness and environmental improvements to both customer and **ERCO Worldwide's** manufacturing processes.

GROWTH

ERCO Worldwide is committed to growth. Building upon our strength in technology, and reputation for providing quality products and customer service, our business continues to grow worldwide.

ERCO Worldwide

ERCO Worldwide is the second largest producer of sodium chlorate in North America and in the world. It also has the world's largest installed base of modern chlorine dioxide generators and related technology. In addition, **ERCO** is the third largest producer of potassium products in North America.

KEY STRENGTHS
